DETAILED ACTION

Allowable Subject Matter

1. Claims 1-9 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: Applicant's arguments are persuasive. Zeitler et al. (U.S. Patent Application Publication No.2004/0210693), the closest reference, and the other prior art do not teach or fairly suggest:

A interconnect network having a plurality of network nodes arranged in two dimensional array on one chip and processing blocks, wherein each processing block is connected to one of said communication buses and sends and/or receives data on that bus, each processing block performing a predetermined processing function, said processing block being located within said two-dimensional array of network nodes (as described in claim 1, claims 6 and 9 recite the corresponding limitations). Further the combination of the above limitations with all of the other limitations the respective claims (1, 6, and 9) is not obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Contact Information

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dr. Henry Tsai whose telephone number is (571) 272-4176. The examiner can normally be reached on Monday-Thursday from 8:00 AM to 5:00 PM. If attempts to reach the examiner by telephone are unsuccessful, the examiner supervisor, Fritz M. Fleming, can be reached on (571) 272-4145. Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the TC central telephone number, 571-272-2100.

3. In order to reduce pendency and avoid potential delays, Group 2100 is encouraging FAXing of responses to Office actions directly into the Group at fax number: 571-273-8300. This
